

COMPANY PROFILE

COMPANY STATEMENT

Transcargo is dedicated to preserving its core operating philosophy that is founded on maintaining the highest levels of quality service. With a continuous commitment to understanding our individual customer needs, we pride ourselves on developing solutions that enrich our customer supply chain strategies.

Transcargo is steadfast on delivering a competitive advantage to our partners and we remain energised by integrating constant improvements in administration, ingenuity and technology.

ROAD TO
SUCCESS

OUR STORY

With more than three decades of practise and experience in supply chain management and logistics handling, Transcargo is one of East and Central Africa's most elite and distinguished transportation company. With its head office based out of Dar es Salaam, Tanzania, Transcargo offers a growing variety of services to its wide-range of clientele, delivering a full package of logistical opportunities from start to finish.

Our rigorous and well-recognised training programs, coupled with our in-house state of the art operational systems enable us to provide a premium service with meticulous focus on safety, efficiency and development.

Leading by example, Transcargo remains committed to bridging the gap in the supply chain configuration by *keeping you on the road to success.*

TAILOR DESIGNED SERVICE

01

We examine and evaluate your business requirements and tailor design a strategy to maximise efficiency and minimise costs. We assess your target objectives and align them with our operational strategies to keep your freight moving on the road to success.

02

Through intercut planning, we structure loading and delivery schedules based on time efficient programs. We explore all effective options on your behalf and work collaboratively with you to identify and highlight the best-suited solutions for optimum results.

03

We move your logistical plan into action with a clear goal and set objectives to give you a competitive advantage and to drive business growth. We work around the clock to provide a full range of technical, operational and managerial support to ensure a smooth delivery from start to finish.

04

We give you over three decades of premium quality control and safety monitoring practice in supply chain management. Through integrated technology paired with administrative expertise, we are able to ensure your cargo is controlled and delivered to you with the utmost care.

SERVICES

FREIGHT SERVICE OPERATIONS

Our heightened focus on providing the optimum service levels and constant emphasis on development makes Transcargo unique in our ability to reach out to a continuum of logistical applications. The seamless movement of goods operated by cutting-edge technology, along with systematic planning allows for a reliable and resolute flow of service packages. Transcargo provides a one-stop solution for all your transportation requirements and delivers an exceptional value-added service that is driven by keeping you on the road to success.

ROAD TO
SUCCESS

DRIVERS

With a strong belief in ensuring productivity and efficiency, Transcargo heavily invests in rigorous training programs to certify all drivers and heavy equipment operators have and maintain the right tools and skill-sets necessary for a smooth and safe operation. Equipped with in-house training facilities, all drivers are subjected to refresher courses to ensure the highest levels of compliance are met.

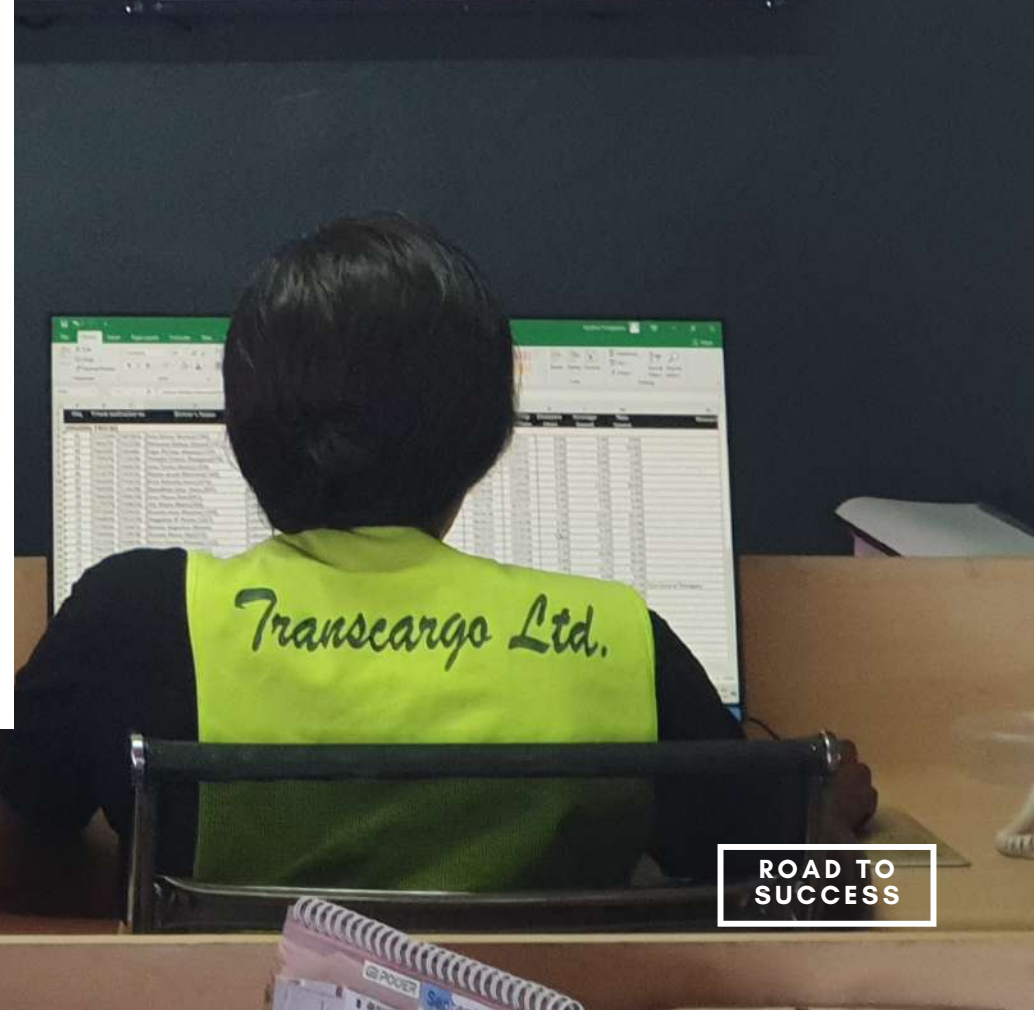

MAINTENANCE

With workshops and service points established across East and Central African corridors, Transcargo has integrated timely and preventative services into its core structure of day-to-day operations. By performing routine maintenance on all our vehicles, Transcargo operates an exceptionally well-preserved fleet that adheres to all international regulatory standards and allows for timely deliveries.

LIVE TRACKING & CARGO MONITORING

Here at Transcargo we believe that an open and honest dialogue is the key to creating a platform for a healthy and long-term partnership. We therefore offer all our new and distinguished clients exclusive live tracking and tracing access, with guaranteed round the clock updates on the condition and location of all your consignments. With our customer-centric approach, coupled with a user-friendly interface, Transcargo offers you a hassle-free tracking solution at your fingertips.

ROAD TO
SUCCESS

GENERAL CARGO SERVICE

Transcargo offers its clientele a unique service with intercut planning and continuous coordination from loading to delivery. With established regional offices along diversified routes, Transcargo is confidently able to take effective control of all your logistical operations and able to ensure maximum cargo security along the way. From the smallest consignment to a complete haul involving thousand of tons of cargo, Transcargo remains poised and eager to keep your freight moving forward.

SUCCESS

CLEARING & FORWARDING

Transcargo's constant presence and involvement in simplifying the amount of time your cargo spends at clearing points is of profound priority to our company's mission. We therefore offer our partners an in-house value added service that covers all clearing and forwarding requirements, with a driven goal that sees your freight moving effortlessly across borders. With an exceptionally intercut network, Transcargo's dedicated clearing and forwarding department guarantees;

- Round the clock supervision
- Follow up and timely progress reports
- An experienced team with sound knowledge on the latest import/export regulations.

&

- Commitment to achieving a speedy and efficient service.

ROAD TO
SUCCESS

STORAGE & WAREHOUSING

Transcargo extends to its partners strategically located warehousing, lay-down yards and storage facilities across diversified routes for safekeeping and cargo consolidation. Our state-of-the-art amenities provide the optimal storage solutions for all types of freight in transit, with safety and security playing a pivotal part in our service offering. Our interlaced partnerships with reputable inland depots across port access countries further allow for transiting cargo to be collected, consolidated and secured. Transcargo's storage and warehousing division has extensive practice in monitoring and providing a fully managed service for all types of goods with cutting-edge technology on hand to assist every step of the way.

ROAD TO
SUCCESS

E2E DELIVERY SERVICE

Transcargo offers an end-to end supply chain delivery solution on consolidated consignments for enterprises using our third party logistics platform. We design, structure and execute customised solutions to cater to our clients business needs to ensure smooth and seamless deliveries onto final destinations.

These solutions come in various formats and packages and are structured to give our partners the flexibility to pick and pair particular services that suit their operational requirements.

GEOGRAPHICAL COVERAGE

"We are proud of what we have achieved and strive to continue to push the boundaries in efforts to keep you and your cargo moving forward in the right direction."

Managing Director

With continuous expansion to our geographical reach, Transcargo currently operates in more than 11 countries, covers more than 15 industries and employs over 700 personnel who collaboratively work together to provide tailored solutions to your requirements.
